

## Transporter Targeted Libraries from OTAVA

### Screening compounds for drug discovery projects related with transporters

I would like to offer you **Transporter Targeted Libraries** (Transporter Modulators Library - 525 compounds and Auxiliary Transport Proteins Targeted Library - 182 compounds). Bayesian statistics was used for design of the libraries. General scheme of the approach is presented below:

All compounds are in stock. The libraries are for prompt delivery, cherry-picking is available.

Feel free to contact me if you are interested to obtain these libraries or if you need more information. I am looking forward to your reply.

Best regards,  
Andriy Dmytrenko, MBA  
Director of Business Development and Marketing
