2017 Spotlight: NEWLY SYNTHESIZED QUATERNARY AMMONIUM SALTS

We would like to offer you our newly synthesized ammonium quaternary salts which are available in gram quantities. According to literature data, this class of compounds has been shown to have antimicrobial activity and it could also be used as phase transfer catalysts, fabric softeners, plant growth retardants and structure directing agents for the synthesis of zeolites.

Cat. number: **11185877**

Cat. number: **11639014**

A full list of the 100 ammonium quaternary salts is available upon request.
Feel free to contact me.

Best regards,
Andriy Dmytrenko, PhD, MBA
