

## **<sup>19</sup>F NMR Fluorine-containing Fragment Library**

New fluorinated fragments for <sup>19</sup>F NMR FBDD!

As a Director of Otava Ltd., I would like to offer you our new <sup>19</sup>F NMR Fluorine-containing Fragment Library of more than 800 fragments.

If compare to traditional <sup>1</sup>H NMR, <sup>19</sup>F NMR screening of fragments is way faster and more accurate. The large <sup>19</sup>F chemical shift dispersion and low fragment concentration enable screening of large mixtures. This technique offers high throughput (potentially thousands of compounds per day) and low fragment concentration that allows to avoid solubility problems.

All compounds in Otava's <sup>19</sup>F NMR Fluorine-containing Fragment Library **have at least one mono fluoro or mono trifluoromethyl group.**

All compounds are in stock (20mg min. amount).

[Find out more...](#)

### Example price list in USD:

Num. of compounds ordered	1-10	11-20	21-50	51-100	101-500	501-1000
Price for 1mg	\$38.3	\$32.7	\$21.5	\$19.4	\$12.2	\$9.5

We offer **15% Academic Discount** for the Fragment Library until Dec 31, 2013

The library is for prompt delivery, cherry-picking is available.

Feel free to contact me if you are interested to obtain this library or if you need more information. I am looking forward to your reply.

Best regards,  
**Andriy Dmytrenko, MBA**  
Director of Business Development and Marketing
