

## Matrix Metalloproteinase-2 Targeted Library from OTAVA

### Screening compounds for drug discovery projects related with MMP2

I would like to offer you Matrix Metalloproteinase-2 (MMP2) Targeted Library (726 compounds in total). It is a special screening collection containing compounds with predicted inhibiting activity against MMP2.

The library has been carefully designed with combination of ligand-based virtual screening methods - Bayesian statistics and k-nearest neighbors algorithm. It comprises only drug-like compounds with chelator groups. All compounds are in stock.

Thank you for your consideration.

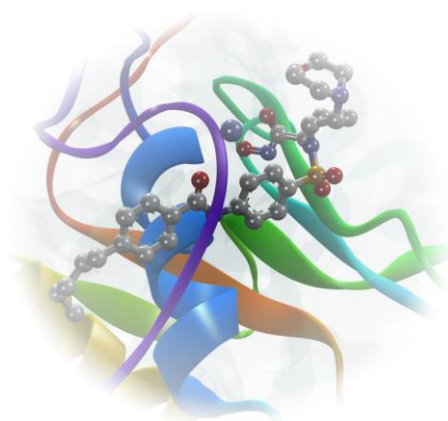

Feel free to contact me if you are interested to obtain this library or if you need more information.

I am looking forward to your reply.

Best regards,

Andriy Dmytrenko, MBA

Director of Business Development and Marketing
